4	One Day Educational Tour: Ratanmahal Sloth Bear Sanctuary	20 September 2022
5	World Tourism day	27 September 2022
6	Chatkaro- Food Fest	10 January 2023

Orientation Program:

Our orientation program is designed to introduce you to the various opportunities, resources, and support systems available throughout your academic journey. You'll receive essential information about our programs, curriculum, and career-oriented courses that will equip you with practical skills for future employment.

This session will provide an overview of the department's mission, the importance of hands-on learning, and how we integrate real-world experiences into your education. You'll also learn about our faculty, the resources we offer, and how to make the most of your time with us.

We aim to guide you in setting academic goals, building professional skills, and preparing for your future career. We're excited to help you embark on this enriching educational experience and support you every step of the way!

Farm Cooking Activity

The **Farm Cooking Activity** for Vocational Studies students offers a hands-on experience that blends practical cooking skills with the knowledge of sustainable farming practices. This activity aims to teach students how to prepare meals using fresh, locally sourced ingredients directly from the farm. It provides an opportunity to learn about food preservation, nutrition, and cooking techniques while promoting an understanding of farm-to-table concepts. Students will work together in a collaborative environment, honing their culinary skills and gaining valuable insights into the food industry. This activity not only enhances students' cooking abilities but also helps them appreciate the importance of sustainable agriculture in everyday life.

Teachers Day

Teachers' Day is celebrated to honor and show gratitude to the educators who play a vital role in shaping the future of students. The day is observed to recognize their hard work, dedication, and the significant impact they have on our lives. In India, Teachers' Day is celebrated on September 5th in memory of Dr. Sarvepalli Radhakrishnan, a respected scholar, philosopher, and the second President of India, who believed that teachers should be recognized for their invaluable contribution to society. On this special day, students express their appreciation through speeches, songs, and performances, reflecting on the influence teachers have on their academic and personal growth. It serves as a reminder of the selfless dedication of teachers, who guide and inspire students to reach their full potential.

One Day Educational Tour: Ratanmahal Sloth Bear Sanctuary

Our one-day educational tour to the **Ratanmahal Sloth Bear Sanctuary** provided students with a unique opportunity to connect with nature and learn about wildlife conservation firsthand. Located in the heart of Gujarat, this sanctuary is home to the endangered sloth bear and a variety of other species, offering students a chance to explore the rich biodiversity of the region. During the tour, students learned about the habitat, behavior, and protection efforts for sloth bears, along with the broader environmental conservation initiatives in place. The visit also included a guided nature walk, where students observed local flora and fauna, gaining a deeper understanding of the importance of preserving natural ecosystems. This educational trip not only enhanced their knowledge of wildlife but also encouraged a sense of responsibility towards protecting endangered species and their habitats. It was an enriching experience, blending education with the beauty of nature, and inspiring students to appreciate and protect our environment.

World Tourism day

On the occasion of World Tourism Day, over 50 students from the Department of Vocational Studies embarked on an exciting educational trip to the Statue of Unity and Tent City 1 & 2 in Kevadia. The visit was a perfect blend of learning and exploration, as the students had the chance to witness the magnificence of the Statue of Unity, the world's tallest statue, dedicated to India's Iron Man, Sardar Vallabhbhai Patel. The students toured the base of the statue, learning about its historical significance and the engineering marvel behind its construction. They also had the opportunity to visit the observation deck, offering panoramic views of the surrounding Narmada Valley.

In the evening, the students were treated to a captivating **laser show** at the Statue of Unity, which highlighted the life and contributions of Sardar Patel through vibrant visuals, music, and storytelling. This immersive experience enhanced the students' understanding of the cultural and historical importance of the statue.

Additionally, the visit to Tent City 1 & 2 gave students insight into sustainable tourism and innovative hospitality practices. The tented accommodations provided a unique and eco-friendly way of staying close to nature, and students learned about the importance of blending tourism with environmental consciousness. The trip was not only a valuable learning experience for those pursuing careers in tourism, hospitality, and vocational studies but also an opportunity to appreciate the richness of India's heritage and the potential of responsible tourism.

Chatkaro- Food Fest:
